"Geospatial Information for a Smarter Life and Environmental Resilience"

FAO and Engagement with Academic Institutions on the Adoption of the VGGTs to strengthen role of surveyors

For implementation of the Guidelines, role of Academia is crucial.

Here is some food for thoughts how the Guidelines could be mainstreamed and applied in professional domains:

- Continuing Professional Development/capacity building/training
- Research
- How Academic Partnerships could be strengthened
- Teaching curricula

"Geospatial Information for a Smarter Life and Environmental Resilience"

1. Technical guides

- The Governance of Tenure technical guides are part of FAO's initiative to help develop capacities to improve tenure governance and thereby assist countries in applying the Voluntary Guidelines.
- They are prepared by technical specialists and can be used by a range of actors to translate principles of the Guidelines into practical mechanisms, processes and actions; give examples of good practice – what has worked, where, why and how; provide useful tools for activities such as the design of policy and reform processes, for the design of investment projects and for guiding interventions.

"Geospatial Information for a Smarter Life and Environmental Resilience"

Why is it important to have those reflected in CapDev materials for the strengthened role of surveyors?

Professionals: should ensure they follow standards of conduct for ethical behaviour. Undertake due diligence when delivering services.

AND

Academia and institutions providing continues professional development courses: have a central role in the education of surveyors, tenure professionals and others who work in the public and private sectors in informing them about their important role related to the VGGT principles' compliance that may help to improve surveying standards and methodologies as part of the process to regularize tenure rights, in different context, particularly in context of customary tenure. While research can help in identifying solutions and helps in further awareness raising.
