

Urban Transportation Policies for Governing Hanoi City

Viet-Hung Nguyen, Viet-Hung Nguyen, Van-Hau Nguyen and Tien-Hiep Nguyen (Vietnam)

Key words: e-Governance; Implementation of plans; Urban renewal; Data Sciences; Transportation; Policy; Hanoi

SUMMARY

Mega-Cities, such as Hanoi in Vietnam, are coping with many issues related to the complex challenges that govern in areas of unplanned urban sprawl. This article aims to address questions regarding urban transportation policies should be implemented towards Hanoi' Greener and Livable City. Specific policies will dramatically improve the likelihoods for all citizens in Hanoi by reducing money and time and providing more urban public services access to opportunities.
